COMMERCIAL INTELLIGENCE

SATURDAY EVENING, 20TH APRIL 1878.

Owing to the Easter holidays our various markets have been closed from Wednesday evening till this morning, so that in most branches of business we have practically only two days' operations to report upon. In the staple articles of trade, such as Cotton and Seeds in exports, and Piece Goods and Metals in imports, there has, in fact, been next to nothing done throughout, but the announcement issued on Tuesday last that a considerable body of troops was to be despatched hence to Malta in a few days created quite a stir in Freights and Coals. So far as we can learn 24 ships and steamers have actually been taken up by Government as transports, and as this takes off the market a large proportion of our disengaged tonnage, rates have recovered from 20s. to 30s. per ton, for steamers and to 25s. per ton for sailing vessels to Liverpool. Coals have been excited, and on Wednesday last a steamer cargo of Davison's West Hartley originally sold at Rs. 17½ was bought back at Rs. 25 per ton, the highest rate touched during the past four years. Since then there have been more sellers to arrive, and prices have lost about Rs. 1½ of the advance, but close, nevertheless, Rs. 3 per ton higher than last mail day.

The political advices from home were, in a measure, lost sight of for a time in the excitement caused by the despatch of troops from here, as this was supposed to show a probability of war which could not be gainsaid, but the latest telegrams to hand from London are, nevertheless, more pacific in tone, Consols being maintained steadily at 94⅞ and French Rentes at 109. The belief in war is, however, too firmly fixed here to admit of people's views being materially affected by anything except very definite intelligence, and in the meantime, therefore, we must be prepared for great quietness in general trade.

Money.—The last published statement of the Bank of Bombay for the week ending on the 13th instant showed a reduction in the Cash Balance of nearly 7 lacs, the result of withdrawals of private deposits to the extent of 18 lacs, against an increase in Government Depots of 5 lacs and a decrease in Loans of nearly 8 lacs. In all probability, however, these movements were, to some extent, in anticipation of the holidays, and not therefore to be taken as indicating an actual increase in the trade demand for Money. In the open market, at all events, there is no tendency in that direction, accommodation being still obtainable at 6 per cent. as against 8 to 9 per cent. at the Bank.

Exchanges.—The Banks having only been open for two days since the departure of last steamer the transactions in Sterling for this mail have necessarily been very light, and rates have been practically unchanged. Owing to Bar Silver in London having recovered from 53¼d. to 54d. per oz. the Banks opened on Tuesday morning by naming an advance of 1-16d. on Private Paper, although unaltered rates for drawing and on Wednesday no fluctuation occurred, so that quotations were :—Bank Bill on demand 1s. 8 11/16d. ; 6 months' sight 1s. 9d. ; Credits, 3 months' sight 1s. 9d. ; 6 months' 1s. 9 3/16d. ; Documents, 3 months' sight 1s. 9 1/16d ; 6 months' 1s. 9¼d. per rupee. In the meantime we have received advice of the allotments of Council drafts in London on Wednesday, which gave £289,000 on Calcutta and £11,000 on Madras at an average of 1s. 8·55d., and £200,000 to Bombay at an average of 1s. 8 63d., tenders at 1s. 8¾d. on Calcutta and Madras receving 7 per cent. and on Bombay 14 per cent. of the sums applied for. These figures being nearly 1-16d. below last week's prices we may look for the Market opening this morning with a slightly easier feeling.

On Calcutta the latest quotations are ¼ to 3-16 per cent. premium for demand and ¾ per cent. discount for 60 days' sight drafts.

On China, the nominal quotation for 60 days' sight Mercantile Paper remains at Rs. 218 to Rs. 219 for 60 days' sight Mercantile Paper.

From Honkong the latest telegraphic quotation for 6 months' sight Bank Bills on London is 3s. 11d. per dollar and from Shanghai 6s. 4½d. per tael.

Government Securities.—The strong apprehensions entertained of an early declaration of war in the early part of the week caused a drop of ¼ to ½ per cent. in rates, which closed on Wednesday evening as follows :—Fours, Rs. 93 ; Fours-and-a-half, Rs. 93½ ; Fives-and-a-half, Rs. 102½. The scare having in some measure subsided since we write open to-day to a somewhat steadier feeling, although we can scarcely look for any material recovery until the political aspect in Europe becomes more settled.

Shares.—The market ruled extremely quiet during the two business days of the week, only very few transactions took place, and rates generally tended in favour of buyers. In *Bank* shares the only quotable movement was in Bank of Bombays which declined Rs. 7½ in sympathy with the drop in Government Paper. *Land* Companies were dull but unaltered in value throughout, and practically the same may be said of *Press* shares. In *Spinning and Weaving* Companies considerable depression was apparent on Wednesday and a decline took place of Rs. 90 in Albert Mills, Rs. 50 in Narsidi, Rs. 25 in Allisnee, Rs. 20 in National, Rs. 15 in Prince of Wales, and Rs. 5 in Great Eastern and Mandvie.

Piece Goods.—No practical change has taken place here. Prices all round are virtually unaltered, the demand continues quiet, and supplies, as a general rule, are more than equal to current requirements. Owing to the Easter holidays the clearances from first hands have been particularly small, only about 200 packages for the week, but from the Bazaar they are estimated at about 1,500 packages, which is fully up to the average of late.

In Gray Shirtings the transactions have only been moderate. Of 39 inch Cloths the demand continues to run on 6 lb. and under which are comparatively scarce, while 7 lb. and 8¼ lb. are in large supply and very difficult to move. In 44 inch and the wider makes there is very little doing. Printers meet a very small enquiry, but considering the state of the market Madapollams, Jaconets, and Nainsooks are in fair demand at about previous rates. Dhoties are quite and Long Cloths and Domestics continues as before quite neglected. Of Bleached Goods the sales have been unimportant, and prices are unchanged. Dyed and Printed Goods and Turkey Reds show no improvement. In local made Goods there has been a trifle more doing at the reduced rates current, sales of 500 bales being reported by the mills.

Twist.—Only a very small business has been passing this week, both in English and local made Yarns ; prices are unaltered, and stocks continue comparitively large.

Metals.—*Copper.*—Transactions have been quite of a retail character, and prices are the same as last quoted. For *Iron*, although we have to make a similar report, and in *Iron*, although as a general rule there has not been much doing, the market is steadier and prices firm. In sheets suitable for making Water Tanks there has been a considerable rise, and the requirements of Government have pretty well cleared the available supplies.

Coals.—The market has been excited with an active speculative demand throughout, resulting in a very large business to arrive. Up to Wednesday evening prices advanced daily and, in fact, almost hourly, until the market touched the highest point at Rs. 25 per ton for West Hartley and Cardiff, being a rise of about Rs. 5 per ton. Since then numerous sellers have come out, and prices close Re. 1 to Rs. 1 per ton lower, but still about Rs. 3½ higher on the week. Something like 20,000 to 25,000 tons have changed hands during the week in arrival transactions, and the following are closing rates :—

Davison's West Hartley to arrive Canal	Rs. 24	Cape	Rs.	23
Cambois Cowpen do.	,,	24	,,	23
Londonderry do.	,,	24	,,	22½
Ryhope do.	,,	23	,,	22½
Laird's Welsh Hartley	,,	22½	,,	22
Watson's Hartley	,,	23	,,	22
Cardiff	,,	24	,,	23

Cotton.—The accounts from Liverpool previous to the Easter holidays were very depressed in tone, and prices both on the spot and to arrive, showed a downward tendency, in sympathy with which our market, up to the suspension of business, ruled remarkably quiet, buyers showing little disposition to operate. Prices, too, have been a trifle easier in Omras and Sawginned Dharwar, but Dholleras being still almost unobtainable, certainly not in any quantity, maintain previous rates.

The *Receipts* for the week ending on Saturday are 33,700 bales against 35,832 last week and 70,124 bales for the corresponding week in 1877. The total since 1st September last is 616,566 bales against 733,142 bales for the corresponding period last season.

The *clearances for Sea* since the departure of last mail have been 41,444 bales, making a total of 398,881 bales since 1st January.

The exports so far have thus kept up fairly well with last year, but it is very evident from the rapid falling off in the receipts that we shall soon begin to fall behind, and the general opinion here appears to be that the total for the six months will not materially exceed 650,000 bales.

The following are to-day's quotations for Cotton with equivalents in Sterling Cost and Freight to Liverpool, via Canal without commission :—

New, Full-pressed—				₹ Candy	₰ lb. C. & F.
Broach Ginned	Good Ready	Nominal	Rs.	203 =	5 7/16d.
Do.	F. G. F.	,,	,,	193 =	5¼d.

Do.	F.G.F.	,,	,,	195 =	5¼d.
Do.	Good	,,	Nominal	200 =	5⅜d.

The visible supply of Cotton for all Europe on the 18th instant, compares with the two previous years as follows :—

	1878.	1877.	1876.
Total supply of all kinds.	2,580,000	2,875,530	2,903,120
,, Surats...	301,000	399,170	494,080
For the U. K. only the figures are :—			
Stock in Liverpool.....	767,000	1,091,310	1,005,440
Do. London.....	10,000	38,400	39,020
American Afloat.....	260,000	190,000	215,000
E. Indian ,, ...	75,000	146,000	150,000
	1,112,000	1,465,710	1,409,460
Price of Mid. Orleans...	6 3-16d.	6 5-16d.	6 5-8d.
,, Fair Dholleras ...	4 13-16d.	4 15-16d.	4 9-16d.
Difference.....	1½d.	1 2d.	2 1-16d.

Seeds.—*Linseed* has been in less enquiry of late, and as supplies at the same time, although still small, are on the increase, prices have again receded As. 2 per cwt, to-day's quotation being Rs. 6-12 per cwt. *Rapeseed* is arriving pretty freely, but meets an active enquiry which prevents any giving way in prices, to-day's quotations being Rs. 7-13 for Yellow Guzerat and Rs. 7-4 to Rs. 7 8 for Mixed Cawnpore.

In Wheat there is still next to nothing doing for export, and prices for shipping qualities are nominally unchanged, say :—Best Soft White, Rs. 39 to Rs. 40 ; Mixed, Rs. 37 to Rs. 38 ; Red, Rs. 36 to Rs. 37 per candy.

BANK OF BENGAL.

The following is the statement of the affairs of the Bank of Bengal for the week ending 16th April compared with that for 9th April :—

Liabilities.	9th March. Rs. A. P.	16th April. Rs. A. P.

[REUTER'S TELEGRAMS.]

(*By Red Sea Cable.*)

THE EVACUATION OF TURKISH FORTRESSES.

CONSTANTINOPLE, APRIL 19.

The Porte has sent a note to the Grand Duke Nicholas in answer to his request for the speedy evacuation of Schumla and Varna by the Turkish troops. The Porte promises to give up Varna, Schumla, and also Batoum in proportion as the Russian troops evacuate non-Bulgarian territory.

MOVEMENTS OF THE ROUMANIAN ARMY.

BUCHAREST, APRIL 19.

The Roumanian troops are continually moving northwards, and concentrating at positions of strategical importance.

FRENCH OPINION OF GERMAN MEDIATION.

PARIS, APRIL 19.

The *Journal des Debats*, the leading Paris newspaper, bitterly condemns the foreign policy of the German Government, and discredits the sincerity of its mediation between England and Russia.

THE CHANGE OF MINISTRY IN TURKEY.

LONDON, APRIL 20.

The modification of the Turkish Ministry being adverse to English influence at Constantinople, the aspect of affairs is to-day considered less favorable to a pacific solution.

GERMAN MEDIATION.

LONDON, APRIL 21.

The Continental papers state, that England and Russia have adhered to a proposal made by Germany for the simultaneous withdrawal of the British Ironclad Squadron and the Russian army from the vicinity of Constantinople, in order to facilitate the meeting of Congress.

The Russian press is silent regarding the despatch of troops from India to Malta.

STEAMER MOVEMENT.

LIVERPOOL, APRIL 20.

The Anchor Line Steamer Italia arrived here yesterday from Bombay.

LIVERPOOL, APRIL 20.

The Hall Line Steamer Branksome Hall left here to-day for Bombay, via the Suez Canal.

Bullion .....£22,300,000....	Dec. £	300,000

STEAMER REPORT.

GALLE, APRIL 20, 8.35 A. M.

Mail Steamer Lombardy, from Bombay, arrived.

THE EXPEDITION TO MALTA.

We hear that the principal medical officer with this Force will be a Bombay Doctor, and that Dr. Hewlett has been recommended to apply for the appointment. The return of Dr. Lumsdaine from leave next month will put Dr. Hewlett out of the Sanitary Commissionership.

The following is a list of the steamers chartered by Government. The Governor has inspected each steamer himself, and has doubts about the *Nankin*, which, however, is not finally rejected yet :—

FOUR BRITISH INDIA STEAMERS.

Tons.	Tons.
1269 Malda.	1231 Goa.
1266 Madura	1229 Canara.

TWO P. AND O. STEAMERS.

1253 Golconda.	781 Adria.

TWO ANCHOR LINE STEAMERS.

1453 Macedonia.	1343 Trinacria.

HALL LINE STEAMER.

361 Morina.

DIFFERENT MERCHANT'S STEAMERS.

2296 St. Osyth—Sir C. Forbes and Co.
1830 Nankin— Sir C. Forbes and Co.
1390 Suez—James Mackintosh and Co.
1839 Bengal—W. Nicol and Co.
984 Benvoirlich—Commander Evans.

The St. Osyth will probably take the 31st Regiment, and the Canara the Bombay Sappers and General Ross and staff. Ships for military purposes are being taken up at from Rs. 8 to Rs. 10 per gross register ton per month, and steamers at from Rs. 18 to Rs. 20. Nearly all the steamers have been engaged for three months certain.

The following is another list of the ships, now in harbour, which are said to have been taken up by Government as transports for the expedition. They have been moved off the Dockyard and the work of fitting them up is going on rapidly :—

Ships.	Tons.	No.	Ships.	Tons.	No.
Argo Bay	1418	20	Hospodar.....	1547	2
Baron Colonsay...	1632	10	Kelkerran	1199	22
Brambletye.....	1405	24	Maravel	1247	21
Clydesdale	1823	3	Narcissus	1270	21
Duke of Athol.....	963	13	Seaforth	1189	11
Citadel.....	1276	19	St. Mildred	1363	18
Hannibal.....	1203	17	St. Mildred	1194	
Helen Scott.....	1117	4	Bangalore	1310	
STEAMERS.			STEAMERS.		
	Tons.	No.		Tons.	No.
Bengal	1839	23	Nankin.....	1830	12
Goa.....	1231	8	Canara	1229	14
St. Osyth	2296	5	Marina	861	15
Malda.....	1263	6	Suez	1390	16
Madura	1266	7	Timsah (Tug).....	130	
Macedonia.....	1453	9	Adria, P. & O.....	781	

The ships Brambletye, Seaforth, and s. s. Marina are in dock, and will get their fittings whilst there.

THE ship Duke of Athol will, we hear, be towed by the s.s. Goa to Cannanore, and will leave on Thursday next. All the transports are to be ready to start, if possible, by the 29th inst.

His Excellency the Governor and Sir C. Staveley, Commander-in-Chief, left Apollo Bunder on Saturday at 3 p. m. for the purpose of inspecting the ships taken up by the Quartermaster General's Department for the transport of the Malta Expeditionary Force.

Their Excellencies were accompanied by the Quartermaster General, the Deputy Quartermaster General, the Superintendent of Marine, the Master Attendant, the Military Secretary, and the A. D. C. to H. E. the Governor. Satisfactory progress was found to have been made in the fittings of ships for both Artillery and Cavalry, the former being the most forward. The first detachment will probably leave Bombay on the 29th inst., and the second very shortly afterwards.

Transports for the conveyance of the Madras troops will leave Bombay probably on the 23rd inst., reaching Cannanore on the 26th. Ships for this duty will be fully provisioned from Bombay, and an officer of the Madras Commissariat will select and superintend the victualling of these ships. He is expected to reach Bombay yesterday.

General Ross, C. B., Commanding the Expeditionary Force, arrived here yesterday morning and is the guest of H. E. the Governor.

Captain Heyland, 1st Bombay Light Cavalry, has thrown up the appointment of Brigade Major at Deesa in order to proceed on service with his regiment. We hope this young officer will not eventually be the loser by the change. Captain Peat, of this regiment, remains with the depôt at Poona.

Captain Robson, M-1 R. A., is absent in Cashmere, and his place in the battery will be filled by another officer.

It is understood that the date of sailing of the second Detachment of the Force will be decided on Monday, the 22nd instant. About fourteen steamers and an equal number of sailing ships are being fitted up. All these ships are of selected excellence. As a general rule each steamer will tow one ship, though some of the more powerful will probably tow two. The total tonnage engaged up to the present represents about 40,000 tons. All Departments of Government take their share in fitting ships for horses, the Public Works Department being responsible for three, the Municipal workshops for one, and the Port Trust for one. All the others are under the care of the Dockyard. The Dockyard is working day and night at ship fitting and constructing water tanks.

About 500,000 gallons of water are required by the force in tanks of 400 and 700 gallons each, and these are being provided as follow :—Tanks for 250,000 gallons already in hand are being prepared by private firms ; and 250,000 gallons will be supplied by the public Departments including the Dockyard and Railway Companies. There will be besides 150,000 gallons to spare.

Water will be provided for 30 days, coal for 26 days ; ships water and coal at Suez. About 9,000 bales of hay, averaging 200 lbs. each, are being compressed by private firms for horses and ponies.

The greatest activity is being displayed in all the Departments of Government.

THE news published in the *Bombay Gazette* of the 17th instant, of Native Troops being ordered to Malta, became known at Mhow in the Lines of the 23rd Regiment Native Light Infantry at a late hour on the evening of the 18th. The next morning at an early hour, almost immediately after "roll-call," the native officers waited on the commanding officer, Colonel Bates, to express on behalf of the Regiment their keen desire to proceed on active service. Directly it was known that the native officers had gone to the Colonel, the men collected in crowds round the Colonel's bungalow, and on the Colonel coming out with the native officers, a scene of the wildest enthusiasm took place. The men with loud cheers confirming the representations that had been made by their native officers.

THE ammunition factory at Dum Dum has been working double time lately.

To those croakers at home, says the Lahore paper, "who have joined in the cry that India is an expensive and useless encumbrance to England, this movement of an Indian contingent to add to the strength of the English army is a splendid rebuff. It will, we hope, open the eyes of all our countrymen at home to the grand power which England possesses while she holds India, and the fellowship in arms between native and British soldiers on European ground will, we trust, make stronger the bonds of native loyalty to British rule here."

A TELEGRAM was received in Bangalore by the military authorities a few days ago, ordering the Sappers and Miners to hasten on the manufacture, repairs, &c., of army equipments ; accordingly the workshop of the Sappers presents now a very busy scene.

ON Monday last the Sir William Peel carried a party of the Torpedo Committee down the river Hooghly as far as Hooghly Point, the object of the trip being to decide upon the points at which torpedoes may, in case of necessity, be most advantageously placed.

ALL the Military Departments in Poona are actively at work for the expedition, especially the Government bakery, where ration biscuits are night and day being made, and packed in barrels of 500 lbs. each.

THE telephone has been tried successfully between Lucknow and Sitapore, a distance of 54 miles. Conversations were carried on with different people for a considerable time with the utmost ease, and a clock, which was made to strike near the telephone in the Lucknow telegraph office, was distinctly heard, and its strokes counted, in the office at Sitapore. The instruments used were made by Lieutenant H. C. Holden, R. A., Sitapore, who kindly lent them for the experiment.

ON Tuesday last, Mr. Evans moved, before Justices Markby and Prinsep, on behalf of the Raja of Pooree and the five prisoners who were convicted of murder by Mr. Dickens, and sentenced to transportation for like, to admit their appeal, to suspend the sentence pending appeal, and to expedite the hearing of the case as quickly as possible. As there was no substantial opposition on the part of the Crown the Court passed the following order :—"We admit the appeal. We will send for the records by post immediately, and we fix Monday week the 29th of April for the hearing of this case, giving liberty to the Crown and to the prisoners to apply to extend the time if necessary. With regard to the application for the suspension of the sentence pending appeal, we want it to be understood that had this been an ordinary case, we should not have entertained the application, but having regard to the exceptional circumstances of this case, we shall grant the suspension of the sentence pending the appeal."

THE story comes to us from Peshawur, says the Lahore paper, of a very sad accident which occurred at that station on the 10th instant. A lady, the wife of a medical officer, had been seized with small-pox a few days previously, and owing to restlessness and want of sleep, it was considered advisable to administer to her an anodine draught of morphia. The writing of the prescription was delegated to her husband, who under the fatigue of incessant watching and anxiety for three days and three nights, wrote a prescription ordering "morphia hydrochlorat, 2 drachms." No quantity of water being mentioned in the recipe, the regimental apothecary to whom it was sent, returned it to the writer to insert the amount of water in which the morphia crystals should be dissolved. The prescription was returned with the reply, "2 ounces of water." The mixture was accordingly prepared, to be taken in two draughts as directed, and sent. Both draughts were administered during the night, and the unfortunate lady closed her eyes to sleep on the 10th instant—for ever. The error in the prescription was simply the omission of the word *sol* or *liq.* before "morphia hydrochloras," which would have made each of the two draughts to contain only half a grain of morphia, whereas no less than one hundred and twenty grains were administered ! The greatest gloom has been thrown over the station by this terrible occurrence, and we hear that the unfortunate husband is at present in a very precarious state of mind.

A TREMENDOUS thunderstorm visited Chicacole on the 16th April. It commenced at half past four p. m. accompanied by heavy rain, registering in half an hour one inch.

THE printers and publishers of two vernacular papers of Eastern Bengal, the *Dacca Prokash* and the *Hindu Hitaishini*, appeared before Mr. Harding on Saturday week, in obedience to summonses issued against them, and, having told by the Court that the Bengal Government had issued instructions that deposit of money was not to be insisted upon, agreed to enter into bail bonds of Rs. 500 each for good behaviour.

THE editor of the *Malwa Akhbar*, from whose paper some seditious writings were pointed out on the occasion of the passing of the Vernacular Press Act, has been sentenced by the Maharaja Holkar to three months' simple imprisonment, which may be taken as evidence of his loyalty to the British Government.

OFFICIAL INSTRUCTIONS REGARDING THE EXPEDITIONARY FORCE.

INSTRUCTIONS are published in the *Gazette of India* of Saturday last, regarding the Expedition to Malta, the chief points of which are, that regiments may be completed with approved Volunteers, and none but men fit for field service are to accompany the Expedition, depôts also to be formed. Regiments of Native Infantry will draw extra batta, and free rations, or ration money at Rs. 3-8 per month allowed to the rank and file while on foreign service. Forage of horses and ponies of Cavalry on board ship, and whenever unobtainable, will be undertaken by the State. Commanding officers will be authorized to advance three months' pay to the troops for service. Regiments to take camp equipage complete. Officers' tents limited to size of lascar's pal ; no padded quilts to be taken. Each soldier will receive a blanket, warm socks and boots, before starting, or on arrival. Officers restricted to one servant and four maunds of baggage for Field Officers, and three for Captains and Subalterns. Followers to be strictly limited.

STOPPAGE OF FREE PASSAGES TO ENGLAND FOR THE WIVES OF OFFICERS IN THE MALTA EXPEDITION.

We understand that some enquiries have been made as to the probability of Government allowing to wives of officers of the force proceeding to Malta a free passage to England. We hear that it is not at all likely that this concession will be made. When a similar concession was made at the time of the China expedition the precedent was strongly objected to by the Secretary of State, and as the cost of the Malta expedition will be much from English revenues, it is very unlikely that the War Office authorities would pass such a charge.

A NOTIFICATION in Saturday's *Gazette of India* says, that, subject to the sanction of the Secretary of State, His Excellency the Viceroy and Governor General in Council is pleased to appoint Mr. Roper Lethbridge, C. I. E., to be Press Commissioner with the Government of India. Mr. Lethbridge is attached to the Foreign Department, and will rank with Political Agents of the first class.

THERE has been some good sport lately in the jungles near Berhampoor, in the Asseergurh district, where Captain Coles, of the 9th N. I., and a party, have secured several tigers and bison within a day or two.

THE trial of the six of the Licence Tax rioters at Surat was continued on Saturday last before Mr. Cassinath M. Thatte, Huzoor Deputy Collector and Magistrate of that city. Mr. W. H. White, Assistant Engineer, Taptee Bridge, one of the most important witnesses for the prosecution, was examined ; and he gave a clear and connected narrative of the progress of the riots which took place on the 5th instant. He was of opinion from which he saw that he himself, Mr. Scannell, District Superintendent of Police, and Mr. Younghusband, Supernumerary Assistant Collector, were really in danger of their lives from the violence of the rioters ; and that, had they been knocked down by the volleys of stones and sticks hurled at them, they would probably have been killed on the spot. The trial will probably conclude in a day or two more. We learn that Government have appointed Mr. Lely, first Assistant Collector and Magistrate, Ahmedabad, a special officer to conduct the trial of the rest of the rioters ; and that he will immediately proceed to Surat. There are at present 28 of the rioters in confinement at the Castle, while about a dozen more are out on bail. An arrest was made on Friday last by the police of a person named Raejee, a man of some position and influence, who is alleged to have been implicated in the riots. The enquiry before the Deputy Magistrate, as far as it has yet proceeded, has not touched one of the most important questions in connection with the riots—namely, the part taken in quelling the disturbance by the men of the 17th Regiment N. I., and the authority if any under which they fired ball cartridge upon the people, &c.

A TREMENDOUS storm of wind and rain, accompanied by thunder and lightning, swept over Bangalore in the afternoon of Wednesday last. Hailstones fell in proportion, some of them large enough to break a thin pane of glass. The thermometer fell from about 90° to 70°. A perfect deluge of rain fell, and the roads, that were before ankle deep with dust, are now ankle deep with mud. Bangalore is saved from all gloomy apprehensions of drought for this year at least.

A CORRESPONDENT at Simla writes—"Not a single house is available for rent, all have been taken up ; there being very few which contain less than two families each, and still they come, visitors and others whose avocations, bad health, surplus cash, and desire for gaiety draw or prompt to seek the gratification of their wants and desires amid the balmy breezes of these blue hills."

BABOO KALI NARAIN RAHA, First Grade Sub-Deputy Inspector of Schools of the Dacca district, has been sentenced to two years' rigorous imprisonment and a fine of Rs. 200, on a charge of embezzlement of Government money and forging documents. The case was heard in appeal last Saturday week. Judgment has been reserved.

and that they had only been deterred hitherto from enforcing their claim under the Copyright Act in regard to India by the difficulty of their carrying out its provisions. The Trustees were, however, informed that under the Indian law it is not incumbent on publishers to supply copies of their works gratuitously to the Government which pays for all copies taken for public purposes ; and they were further informed that should they desire to enforce their claims under the Act, that was a matter which concerned themselves. It was at the same time pointed out that the chief consideration which induced the Indian authorities to determine that books required for public purposes should be paid for, was the opinion entertained by most competent persons that any legislation which omitted such a provision would remain a dead letter. Subsequently an arrangement seems to have been made for supplying the Museum authorities with copy of the "Quarterly Catalogues" which go to the India Office ; by which means such works published in India, as may be considered to be suitable acquisitions for the National Library, may be selected.

HER MAJESTY'S CONSUL at Cayenne towards the end of 1877 sent in a report on the mortality among Indian emigrants in French Guiana. In this report Mr. Woolridge, the Consul, points out the very high death-rate, which was no less than 5·5 per cent. for the first half of 1877, or 11 per cent. for the year, among the newly arrived emigrants, while the general death-rate among the emigrants was 4·13 per cent. for the six months. He arrives at the conclusion that "the administration is powerless to render the coolies' position a safe one in this climate, in point of health, or a satisfactory one as justice demands ; for complaints of beating, stoppage of wages, improper feeding, and others, although attended to by the authorities are ever recurring at the Consulate. Many of these complaints are satisfactorily settled, and the coolie departs for his *placer* or estate, justice having been rendered to him and his salary paid up, but only to reappear a few months later with a similar complaint. Over eighty complaints passed through my office during the first half of 1877 ; some of the most serious ones were decided by the law ; and I invariably remarked that most of the coolies' complaints were declared to be unfounded." A large portion of the report is taken up by an abstract of a paper contributed to the *Revue Scientifique* of July 1877 by Dr. François, lately a surgeon employed in the care of coolies on a gold establishment at Mataroni. Mr. Woolridge says of him, "I am intimately acquainted with Dr. François, and have several times listened to the relations of his experiences at the Mataroni mines, and can bear testimony to the correctness of the review." Most certainly, if Dr. François' testimony is to be accepted, the condition of the coolies in the remote *placers* which he describes is most horrible, and no proper arrangements for hospitals or attendance on the sick is made. He says "those coolies who became seriously ill at the *placers* were sent up to the Central hospital, and if they became worse were transferred, by a difficult route of several days' duration, in open boats exposed to wet and the burning sun, to Cayenne, which place their state of health rarely allowed them to reach. Many died even at the Central hospital, which was but a mere open shed, for want of the most ordinary care." The Government of India had, presumably on some intimation of bad treatment of coolies, suspended emigration from India to Cayenne in September 1876, although before the suspension could be carried out certain convoys of emigrants which had already been collected at the Southern French ports were enabled to start for the Colony ; but it has now been resolved that emigration to French Guiana will not be permitted until there is full guarantee to ensure that the coolies will receive proper care and just treatment.

THANKS to the indiscretion of a Russian newspaper correspondent, we know the opinion of the Treaty of San Stefano, expressed by M. Onou, the Russian dragoman who is supposed to have negotiated a secret treaty direct with the Saltan while the Plenipotentiaries were preparing the public one at San Stefano. He is reported to have said :—"From the point of view of Russian diplomacy we have taken from Turkey everything which we could demand from her without breaking European peace. The least alteration in the treaty would cause an infraction of our own or European interests. Turkey remains in Europe, but in the military sense she becomes a mere spectre ; and at a more convenient season Russia may, by a single word or threat, without having recourse to arms, compel the Porte to grant the demands which will inevitably arise in the future."

WE understand that the Secretary of State has approved of the orders passed by the Government of India on the subject of the cadastral survey of the permanently settled districts of the North-Western Provinces. Those orders modify former orders on the subject, and it is now decided that the survey shall proceed, but that Act XXI. of 1873 (about which a doubt was entertained as to the legality of defraying the cost of the survey from the Patwari rate leviable under that Act) shall be so amended as to admit of the expenditure of the Patwari rate, on the preparation of the village maps, as it is still the opinion that neither the balances from the old Patwari cess, nor the funds raised under the more recent Act, can properly be applied to defray the cost of the survey. In the opinion of the late Lieutenant Governor (Sir John Strachey) and the Surveyor General, this survey is very urgently required, and we understand that the Secretary of State has now expressed a hope that it may be pushed forward with all the rapidity of which Financial consideration will admit with due regard to the interests of the cultivating and other classes immediately concerned.

WE understand that the authorities of the British Museum have, on reconsideration, withdrawn an offer they made, sometime ago, for the purchase of all Indian publications, the Trustees not being prepared to incur the expenditure involved in an agreement to acquire by purchase copies of all works and newspapers published in India. In the correspondence that took place on this subject, the Trustees, in representing to the authorities at the India Office their inability to expend money on the purchase of such publications, pointed out that they were entitled under the provisions of the Copyright Act to receive a copy of every work published in India free of charge for the use of the Museum Library,

of the Rolls, is likely to cause much discussion in legal as well as medical circles from its peculiar nature. It frequently happens that a man is brought in by a jury as of unsound mind and the verdict subsequently set aside, but we do not remember where, after the jury have pronounced a man irresponsible for his actions, that the verdict has been overruled. The question is, will the Government do with Mr. Dodwell ? Dr. L. Forbes Winslow and Dr. Winn have seen him twice and sent in their report to the Home Secretary, stating that they could detect no symptoms of insanity. It appears that the conduct of the accused during his residence in Newgate has been exemplary and most rational. He premeditated for some months the act for which he is now suffering. He is indignant at the question of his sanity being raised, and complains of being pronounced as *non compos mentis* without any medical witnesses having been called to support such an allegation, not even Dr. Gibson, the surgeon of the gaol. He considers anything is preferable to being stamped as a criminal lunatic and incarcerated as such for life in a living tomb. He entirely repudiates any intention of having contemplated murder. He is a man of determined purpose ; and if he have once taken an idea into his head, he will endeavour to carry it out to the utmost of his ability. He had written several letters to the authorities, stating that it was his intention to break the law in order to have his case properly discussed in the Court of Appeal. He appears to have been driven to desperation and ruin by what he considers to be an injustice. He does not labour under any delusion. He occupies his time in Newgate in writing Latin poems, being a man of highly cultivated and classical attainments.

IT has been known for some time past that the Government was in treaty with Sir William Armstrong for the purchase of four 100 ton guns which are near completion at Elswick, but it was considered prudent to keep the negotiation secret, as there were other bidders for the monster weapons in the European market. Arrangements are now completed by which these four guns have become the property of the British nation, and in the course of two or three months they will be ready for mounting on board any ship which is prepared to carry them. It is not likely, however, that they will be placed on ship board for some time to come, for the Admiralty have made no provision for them, neither does it appear that the present condition of naval armaments shows any demand for such mighty ordnance. The chief argument for their acquirement was the apprehension that they might become the property of another Power and so enable it to dominate the sea. At present although Italy has 100-ton guns for the two latest war ships, and England has ready her 80-ton guns for Her Majesty's ship Inflexible, there is no armour afloat which can resist the 35-ton and 38-ton "Woolwich infants," which have during the last few years been produced at the Royal gun factories in the Royal Arsenal, Woolwich, and employed in the national defences by land and sea. The subject has fully engaged the attention of the Government, and the desirability of manufacturing something heavier than the 80-ton gun has been strongly advocated, but while foreign nations plate their ships with anything less than 19½ inches of iron they are regarded as at the mercy of the 800lb. Palliser projectile fired by the 38-ton gun and the authorities have consequently hesitated about taking a step still further in advance. The reflection, however, that the Inflexible, with its 24 inches of armour plating, would be defenceless against the 100-ton guns which Italy possesses, and some other Power might have possessed, has now induced the Government to conclude the present purchase, and, furthermore, to consider whether they should stop at this point. It is pretty well authenticated that the Italians have provided themselves with a steel-plated target which even their 100-ton gun cannot penetrate, and that they are preparing a ship which shall be defended with this armour. In view of this circumstance, the authorities are deliberating upon the production of a much more heavy and powerful piece of ordnance, and it is anticipated that an order will be given before long to the Royal Gun Factories for a gun of over 200 tons. The drawings for such a weapon were prepared long since, the machinery is all prepared for constructing it, and all that is required is the order to proceed. Such a gun would throw a shot of some three tons weight and pierce three feet of solid armour. It would, however, take two years to make, and perhaps another year for experiments ; but the manufacture of a ship which would have a chance even with the guns of the present day would take at least as long.

IT is good news, if it is true—which we believe is the case—that the Bangalore Fort is to be put into a state of thorough defence. In these troublous days, the value of such a measure cannot well be overrated, for, in case of trouble, the European residents of the city will not find much protection in the dilapidated old Bangalore Fort.—*Spectator.*

THE LICENCE TAX RIOTS AT SURAT.—MAGISTERIAL ENQUIRY.

(FROM OUR SPECIAL CORRESPONDENT.)

SURAT, APRIL 17.

THE enquiry was resumed to-day at 12-45 p.m. before Mr. Cassinath Mahadeo Thatte, Huzoor Deputy Collector and Magistrate. The accused were placed before the Court in the following order :—1. Doolub Fuckeera. 2. Allabux Jewabboy. 3. Hargovun Lukhmidass. 4. Rama Heera. 5. Hurkisson Kessow. 6. Chuggonlal Gunputram. Mr. Mansukhram Orishnaram appeared for the first prisoner ; and Mr. Ochavlal Nagindass for the fifth. The other three prisoners were undefended.

Mr. Arthur Delaval Younghusband examined by the Deputy Magistrate.—I am 23 years of age, and am Supernumerary Deputy Collector. I remember the riot of the 5th inst. I have heard there was more than one riot. I was present when the riot began. Having heard from Mr. Ollivant, the District Magistrate, that Mr. Scannell, District Superintendent of Police, was in the city of Surat where the people were rather excited, I and Mr. White, Assistant Engineer Taptee Bridge, went out on horse back to see if we could be of any assistance. We rode towards the Clock Tower along the Delhi Gate Road. Near the Clock Tower we observed a crowd of people in a side lane. I did not observe them doing any thing in particular ; they appeared to be simply excited. We thought that Mr. Scannell was further off towards the station, and began to proceed in that direction. Meanwhile, a police sepoy informed us that Mr. Scannell was further on in the road. We then saw a large crowd of persons blocking the road between the Clock Tower and the Castle. We stood where we were for a few seconds to observe the excitement of the people and ascertain its cause. Directly they saw us, the crowd began clamouring and some one shouted "marro, marro," that is "strike, strike." The shout was echoed by the greater portion of the crowd ; and at the same time a man with a large bamboo pole struck my horse across the quarters. We were silent all along and even after my horse was struck. Two or three sticks were then thrown at me and Mr. White, immediately followed by a shower of sticks and stones, several of which struck us, and several we avoided. The mob generally was on one side, facing towards us. We stayed a few minutes longer to see what was the object of the crowd in thus attacking us, and hoping that they would soon be quiet. We were turning round and round occasionally. There was no obstruction in the road to our passing onward. We backed our horses and began to proceed in the direction of the station, where, we thought, Mr. Scannell was. We trotted, and as our backs were towards the mob, I cannot say whether they moved towards us. They pelted at us.

The Magistrate.—But after you trotted away, they pelted at you even then ?

Mr. Younghusband.—Yes, I fancy so. After trotting about 200 yards from the place which we left, we met Mr. Scannell, who was walking on foot with a garry beside him. He had a few police with him, two sowars and one or two policemen on foot. He was coming from the station, and there were a number of people behind him. We three then went towards the place where the mob had attacked us. The mob that was behind Mr. Scannell continued following us. We were pelted a good deal from behind. I cannot give the details as to when the pelting began, &c. The pelting appeared to come from all sides to which our backs were turned ; and we could not see the men who pelted us. By the time we got to the Parukh Dispensary, we met the other mob that had pelted me and Mr. White ; and we were thus between the two mobs,—entirely surrounded. The pelting got worse than ever ; and there appeared to be no possible chance for a person on foot making his way through the mobs. We went into the dispensary.

The Magistrate.—That is to say, you thought your lives to be really in danger ?

Mr. Younghusband.—Mr. Scannell suggested our going into the dispensary for personal safety, as the pelting continued. A person on horseback had the best chance of escaping from the mob, but the attempt would not have been without some danger. We therefore entered the Parukh Dispensary for shelter. We fastened the doors and windows.

The Magistrate.—Still the mob continued pelting ?

Mr. Younghusband.—A large brick came and broke a venetian-door. The mob surrounded the building and the missiles came from all sides. The glasses and venetians of the doors and windows were broken through. They were slight venetian-doors. I cannot say whether the shout of "marro, marro" was repeated ; but there was a great deal of noise in the crowd. We twice attempted to drive away the mob, but with only a slight temporary success. They kept beyond the reach of our sticks. We could create a little diversion and kept them from us for a moment.

The Magistrate.—That is to say, you could not leave the building with any amount of safety ?

Mr. Younghusband.—Yes, we could not leave it with safety. There would have been danger in going out. There was safety in the dispensary, but we had the mob to avoid the stones, &c., standing and standing against the walls. We three and two sepoys were inside the dispensary. We kept on moving from one part of the building to another. While this was going on, Mr. White left the building in what manner I did not see. The mob tore up the iron railings and the compound wall, and began swarming in. They came right up to the building armed with long bamboo poles, about six feet long. We thought they meant to use the poles against us. I think they gradually came towards us ; but I cannot say they had any deliberate plan. From the manner in which the rioters tried to come near us, I thought they wished to use the bamboos for doing what they could not do with showers of stones and brickbats. We certainly thought that the mob was in danger of being killed. Mr. Scannell took up a sword from one of the sepoys and made a rush through the crowd, apparently with the intention of cutting down any one who came in his way. The crowd gave way, but I think they did not stop from pelting at him from a distance. I followed Mr. Scannell with the bridle of my horse in one hand and my whip in the other. A moment afterwards I turned round and gave the horse's bridle to the sepoy whose sword Mr. Scannell had taken and whose face was cut. It was a sepoy, but I cannot be sure whether he was the sepoy who had lent his sword to Mr. Scannell. There were stones in the air, there was a thick volley going on, as we passed out of the dispensary. I was a good deal hurt. I recognise the first prisoner as having been among the rioters. I saw him pelting in front of the dispensary. I cannot swear to seeing any of the other prisoners. I was not with Mr. Scannell all the time ; I missed him for a few seconds. I fancied I once saw him down. It was necessary for one to keep down his head to avoid the stone, and hard to use his eyes. By the time I got into the middle of the road, I saw Mr. Scannell in the road. A small body of armed police came up, and the mob began to disperse. The police that came joined us. I did not at the time see any of the prisoners in the hands of the police. I saw the first prisoner from the dispensary and can recognise him. Immediately on the arrival of the armed police, they made about half a dozen prisoners out of the rioters. I got on my horse at once and tried to break up the mobs. I cannot say whether the first prisoner was among the half a dozen that were arrested. They were taken with us to the Castle. I did not particularly observe the faces of the prisoners whilst on our way back to the Castle. There was nothing to prevent my looking at them except that there were a good many things to think of. We were pelted at from behind. Almost as soon as we started, the mob began to form up again and followed us. This was one of the reasons why I did not notice the faces of the prisoners. I did not hear Mr. Scannell giving an order to the police to make as many prisoners as they could. I did not speak to the people about their assembling together ; and I think Mr. White did not. We gave them no provocation. I did not even tell the crowd to disperse when they blocked the road. The pelting came upon us quite unexpectedly ; and we could not make out why the mob thought proper to attack us. I have nothing to do with the working of the Licence Tax Act, and have no connection with the Municipality of Surat. I have no connection, either officially or privately, with the people of Surat. I have been here only four months. I have no powers here. I never came into official contact with the people of Surat. To my knowledge the people assigned no reason for their conduct towards me. I did not inquire why I had been assaulted. I had nothing more than a few bruises which lasted some days. I fancy I am all right now. There are some marks still on my body. Among the rioters I noticed chiefly Hindoos and Borahs, the latter being prominent by their dress. I can say from the appearance of the prisoners that, with the exception of the second, they are all Hindoos. The Hindoo portion of the mob resembled five of the prisoners ; but there were others better dressed also. I saw a stone strike Mr. White ; but I cannot say who struck it. I don't remember seeing any stones strike Mr. Scannell. After the riot was over, I saw both Mr. Scannell and Mr. White very much hurt.

Witness was cross-examined by pleader for fifth prisoner as follows :—

Q.—Can you recognise the police officers who made arrests on that day ? A.—No, I cannot. I remember seeing Mr. Jehangirsha, Inspector of Police, I cannot say whether he made any arrests. I think I saw Mr. Scannell arrest some persons. I cannot say how many persons were in the crowd when first noticed in the lane ; there was no end of them. I was not asked on the spot to identify any of the prisoners. Two days afterwards I was shown some prisoners for the purpose of identification. They were brought to the Castle by the police authorities ; and I saw them in the presence of Mr. Scannell. I pointed out the first prisoner as the person I could recognise. I should say there was an interval of scarcely a minute between Mr. Scannell's coming out on the road and the arrival of the armed police. The lane in which the first crowd was seen is a thoroughfare.

Q.—Was the place where the arrests were made also a thoroughfare ? A.—Yes.

To the Magistrate.—In the places where the mobs had collected all traffic in the public roads was impossible. I am sure the men who were arrested were part of the rioters.

Cross-examined by mookhtiar for first prisoner.—I saw first prisoner in front of the dispensary. He was dressed much as he is now. I saw him throw brickbats two or three times. He injured my horse a good deal by one of the bricks. I did not see any one else hurt by first prisoner. The smallest missile I saw thrown by first prisoner was larger than my two fists. I saw bricks in both his hands. He had nothing on his head. I cannot say at what particular spot he was arrested, and by whom. I did not notice anybody inciting him to throw stones. I did not notice in which direction he ran away when the mob began to disperse. I never saw him before the riots.

Mr. Scannell, District Superintendent of Police, who was examined on Tuesday last, was recalled for cross-examination.

In answer to the mookhtiar for first prisoner, Mr. Scannell said,—I don't remember seeing the first prisoner before the day of the riot. On that day I saw him first on the Delhi Gate road in front of the dispensary. I cannot tell how many stones and bricks he threw. I did not notice whether he is right or left-handed. As far as I can remember, he had a puggree on when I saw him first. I cannot state whom he particularly hit ; but he was pelting all the time. I cannot tell you how big were the stones he threw, because I did not see them. I cannot say which policeman arrested him (first prisoner.) I remember seeing him only at the dispensary. I saw him throwing stones. I did not see him pulling down the dispensary compound walls. I do not know whether any one was inciting first prisoner to throw stones.

Cross-examined by pleader for fifth prisoner.—I had given no orders against people walking in the roads before the riot took place. In consequence of the riots, the traffic in the streets was stopped. On returning from the station, I found the roads pretty well deserted.

Q.—Have you ordered any stones to be collected and produced ? A.—No.

The Magistrate.—I may tell you Mr. Scannell is not the prosecutor. You were not here yesterday ; and I may tell you Mr. Jehangirsha, the police inspector, is the prosecutor on behalf of the Crown.

Mr. Ochavlal.—Has Mr. Jehangirsha laid any sworn information ?

The Magistrate.—No.

Mr. Ochavlal.—Then there is great objection to his sitting here or coming forward as a witness.

The Magistrate.—Will you show me any authority for that ? I don't think he is coming as a witness, but what objection can there be to his giving evidence if he wishes to do it ?

Cross-examination continued.—Q.—When the arrests were made, did you ask any of the prisoners why they were there ? A.—No, I did not think.

To the Magistrate.—When I rushed out of the dispensary I did not notice any traffic whatever in the streets. There was no traffic in the roads when I gave orders for arrests to be made. I am sure that all the arrests were made out of the rioters. Judging from the nature of what was going on, and from what I saw with my own eyes, I do not think any well-disposed people were likely to venture out into the public roads when the arrests were made. When the arrested persons was about to be marched off, one or two representated they had nothing to do with the riot and that they were innocent. I cannot state positively who they were ; but I think one of them was the sixth prisoner (who alleged he had been unable from a disease

MR. CAWASJEE PALLONJEE, the son of the late old Pallonjee Pestonjee, the well-known Proprietor of the above Popular HOTELS, begs most respectfully to announce to the Ladies and Gentlemen and to the European Gentry generally, that he has, in deference to the expressed wishes of most of his late father's friends and admirers, and with the object and desire to perpetuate his father's good name in connection with these Hotels, at a very considerable cost, now become the sole purchaser and owner thereof.

Mr. Cawasjee will endeavour to treat his patrons with the same courtesy and attention which was so characteristic of his good father, and this, coupled with long experience and intimate acquaintance with the routine and management of the Hotels in his father's lifetime, will, he trusts, be a sufficient guarantee of the Hotels being carried on upon the principles inculcated by his worthy father.

IMPORTANT NOTICE.—Residents at Mr. Pallonjee's Hotels at Byculla can, when it may suit their convenience, tiffin or dine at his Victoria Hotel, Elphinstone; and those residents in this Hotel can avail themselves of similar accommodation at his Byculla Adelphi Hotel.

CHARGES MODERATE.

Necessary Tent. Apply to
JAFFER SULLIMAN & Co.

ILL-HEALTH.—Numerous Diseases arise or cannot be got rid of by reason of impurity of blood. OLD DOCTOR JACOB TOWNSEND'S SARSAPARILLA has now for nearly half a century been prescribed in all such cases. Its cleansing, tonic and estorative qualities render it peculiarly efficacious in cases of Biliousness, Disordered Stomach or Liver, Headache Skin, Blotches, Piles, and ailments arising from a tainted state of the blood or debilitated constitution. To those living in crowded cities or in unhealthy districts its effects are magical. Many remedies for particular diseases fail in consequence of the enfeebled and impure state of the system. Cleanse, strengthen, and purify the system and blood, and maladies which have long proved incurable will vanish or yield to other remedies.

In conjunction with this invaluable Preparation may, with great advantage, be taken the OLD DOCTOR'S SARSAPARILLA PILLS, aperient and alterative, but not purgative. Wholesale Agents Messrs. Bathgate and Co. for Bengal and Calcutta; Messrs. Parry and Co. Vepery, Madras, or at the Sarsaparilla Depot, 152, Fleet Street, London.

BADHAM AND COMPANY,
RAMPART ROW BOMBAY.

THE UNITED SERVICE WINE COMPANY

HAVE OPENED AN ESTABLISHMENT IN BOMBAY AT 3, SASSOON BUILDINGS (OPPOSITE THE MINT AND TOWN HALL), FOR THE SALE OF PURE WINES ONLY, AND AT THE VERY LOWEST POSSIBLE PRICES FOR CASH.

All the Wines have been selected in the Growers' Cellars after careful comparison in the various districts, and the usual purchasing agencies done away with entirely. An immense advantage is thereby obtained, both as regards price and quality. A comparison with supplies from other Houses is confidently invited, and for this purpose sample cases of 1 doz. quart bottles assorted liquors will be sent.

All natural Wines are guaranteed pure, as the sources are known and can be relied on.

CLUBS, MESSES, &c., ordering largely can be supplied and invoiced direct from the Growers' Cellars at wholesale trade prices.

Samples of Ports on hand by D. M. Feuerheerd, Growers and Shippers, Oporto, at £30, £42, £50, £54 and £60 per pipe F. O. B. at Oporto; also Sherries by J. P. Feuerheerd, Jerez, at £35, £40, £44, £50, £58 and £74 per Butt F. O. B. at Cadiz, either in Hhds., Pipes or Butts.

Agents for "The Union of French Wine Growers, Limited," for their pure Burgundies.
